

Precision Engineered for Modern Control Power

Mid-Central Electric has supplied the utility industry with the best-in-class products for over 50 years.

Fixed Load Transformer

Our high-performance “Fixed-Load” Transformers feature the most compact tank diameter in the industry, providing the best aesthetics, and ease of installation for your application. We pride ourselves on being a critical piece in delivering power worldwide!

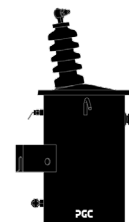

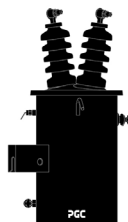

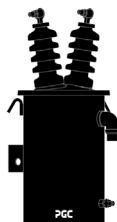

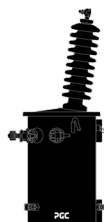

Features

- ◆ IEEE C57.12.20 compliant
- ◆ Stainless steel exterior hardware
- ◆ All copper windings
- ◆ Low losses
- ◆ Nitrile gaskets
- ◆ High strength polymer LV bushings
- ◆ Primary connection wildlife protector
- ◆ Pressure safety valve + manual release
- ◆ Standard NEMA hanger bracket
- ◆ Polyester powder coating finish

Specifications

- ◆ **Primary voltage**
2.4 – 22.9 kV
- ◆ **Transformer**
0.5 – 3.0 kVA
- ◆ **Secondary voltage**
120 – 240 V

Fully customizable for your specific needs
